# FBU Dean's Words of Gratitude

It has been a pleasure to watch our work as teacher-educators, researchers, and community partners develop. While the most rewarding indicators of these efforts are the quality of our graduates, the scholarship we publish, and the support we provide our partners in the field, perhaps the most high-profile indicator is the popularity and trust we are receiving of our students as an Online institution. Online education helps student gel in their studies well with their busy schedule. Our programs are self-paced and thus so, you can alter the duration of your degree as per your feasibility. Here I would take up the opportunity to reflect some of our proudest accomplishments—projects I consider most important for our development: our dedication to producing research that improves the practice of education, and our commitment to attracting and retaining the best faculty to guide our students.

## James E. Thomas

Dean - Florida Beach University
